Construction and Demolition (C&D) Waste Management Plan Final Report Form

SELF HAUL MUST COMPLETE	Construction and Demolition (C&D) Waste Management Plan Report Form Material Handling Worksheet
----------------------------------------	--------------------------------------------------------------------------------------------------------------------

Please specify which materials were reused, recycled or landfilled by completing the table below. List each type of debris item and provide the name of the facility used. Use all weight tickets and receipts to complete and submit copies of weight tickets and receipts with your report.

Column A	List quantities of waste generate for each material type in tons.
Column B, C & D	List quantities of material re-used, recycled, or disposed based on Column A quantities.
Column E	List the name of all vendors or facilities you used to recycle, re-use, or dispose of the materials listed. See example below for cases where more than one facility was used for a particular material type.
Column Totals	Add up all material quantities for each column.
Diversion Percentage Estimate	Calculate the estimated diversion percentage in the section at the end of this worksheet.

Materials	A	B	C	D	E
	Total Waste Generated	Reuse/Salvage	Recycle	Disposal	Destination
<i>Example: Cardboard</i>	2 tons	0	1.5	0.5	ABC Recycling Facility (Recycle) Prima Deschecha Landfill (disposal)
Asphalt/Concrete					
Brick/Masonry/Tile					
Carpet/Foam padding					
Cardboard					
Drywall					
Metals					
Green Waste					
Garbage/Trash					
Dirt					
Other					
Other					
Total					

Diversion Percentage

Column Totals: (B) _____ + (C) _____ = _____ / (A) _____ = _____ x 100% = _____ %
