CITY OF GLENDORA DEPARTMENT OF PUBLIC WORKS

“SPECIAL PROVISIONS”

Subject to California Vehicle Code Division 15

These provisions are attached to and made a part of Permit No. \_\_\_\_\_. This permit shall become void without required accompaniments.

This moving permit is subject to the provisions set forth in the Motor Vehicle Code of the State of California (Division 15).

In consideration of the granting of this permit, it is agreed by the applicant that the County of Los Angeles or the City of Glendora wherein the permit work is to be performed and any of their officers or employees thereof shall be saved harmless by the applicant from any liability or responsibility for any accident, loss or damage to persons or property, happening or occurring as the proximate result of any of the work undertaken under the terms of this application and the permit or permits which may be granted in response thereto, and that all of said liabilities are hereby assumed by the applicant. The applicant further agrees that in case of damage to the roadway, by reason of these operations, to reimburse the County of Los Angeles or the City of Glendora wherein the damage occurred for the cost of repairing or restoring the roadway to its original condition.

**MOVING IN INCLEMENT WEATHER.** Movement shall not occur in snow, fog, rain or wind when visibility is reduced to less than 1,000 feet (304.8 meters). Movement is prohibited when road surfaces are hazardous or use of tire chains is mandatory. In addition, manufactured housing shall not move when the velocity of the wind is such that it causes the vehicle being towed to whip or swerve from side-to-side or fail to follow substantially in the path of the towing vehicle. If inclement weather is encountered during the movement of the vehicle, it shall continue to move, using reasonable care and precaution to prevent traffic disruption, to the nearest suitable location to where the load may be parked until the inclement weather passes. The speed limit shall not exceed 25 mph or the posted speed whichever is less when moving to park at the nearest suitable location. An encroachment permit may be required, from the governing agency, when load is stopped or parked, depending on conditions and location.

**DECLARATION OF ROUTE REVIEW**

I declare that:

1. Within the week preceding the date of this Declaration, I, or the permittee I represent, have reviewed, in the field, the proposed route shown on the attached moving permit application dated \_\_\_\_\_, and found it acceptable to accommodate the height, length and width of the vehicle (including load) for which the permit is required.
2. I further declare that said review has indicated:
  - a.  There are no bridges within the permitted route.
  - b.  There are one or more bridges within the permitted route.
    - (1) The driver will be instructed to look for and to take appropriate action to avoid construction activities that might reduce the vertical clearance under any such bridge.
    - (2) For loads exceeding 125 tons, driver shall follow provisions or comments stipulated in approved structural review (when applicable).

I declare that the following declaration is true and correct under penalty of perjury.
