Executive Summary

AP-05 Executive Summary - 24 CFR 91.200(c), 91.220(b)

1. Introduction

Each year, the City of Glendora participates (as an entitlement jurisdiction) in the Community Development Block Grant Program (CDBG). This program is administered by the US Department of Housing and Urban Development (HUD), and provides funding for a variety of different projects, with eligibility based on meeting the following national objectives: Benefitting low- and moderate-income persons; Eliminating slum and blight; or meeting a particularly urgent community need.

The City of Glendora anticipated receiving an FY 2022-2023 allocation of \$300,000 in CDBG entitlement funds from the US Department of Housing and Urban Development (HUD) to spend on housing and community development activities that address the priority needs and goals established in the 2018-2023 Consolidated Plan. The actual allocation of CDBG funds for FY 2022-2023 was \$301,679. Allocations throughout this Action Plan have been adjusted based on the plan outlined at the end of this Executive Summary. This is the last Annual Action Plan of for the 2018-2023 Consolidated Plan (Con Plan).

In addition to the \$301,679 in CDBG funds for FY 2022-2023, there is \$580.80 (\$581) in prior year funds which are allocated as part of the FY 2022-2023 Annual Action Plan. Therefore, the amount committed to activities in this Action Plan is \$302,260.

The City received a total of \$446,197 in CDBG funds through the CARES Act (CDBG-CV). Those funds are part of the FY 2020-2021 Annual Action Plan (AAP). All CDBG-CV funds are allocated and the activities funded are on-going. Progress made on CDBG Entitlement and CDBG-CV activities is reported below.

2. Summarize the objectives and outcomes identified in the Plan

The FY 2018-2023 Con Plan identified the following priorities:

- **Infrastructure and Public Facilities:** Improve and expand infrastructure and public facilities that benefit low- and moderate-income neighborhoods and residents.
- **Economic and Human Development:** Provide for the economic development needs of low- and moderate- income persons and neighborhood target areas.
- **Fair Housing:** Promote fair and equal housing choice for all persons.

- **Administration and Planning:** Provide for administration and planning activities to carry out actions that address identified needs in the Consolidated Plan.

The City of Glendora continues to address the Con Plan Priorities identified to the greatest extent possible with the resources available. In FY 2022-2023, the City will use its funds to address three of the four Con Plan Priorities. \$241,925 of the FY 2022-2023 allocation will be used to continue critical infrastructure improvements in low- and moderate- income neighborhoods. As allowed by regulations, \$60,335 (20% of the entitlement allocation) will be used for administration. Of that 20%, \$15,000 will be used to fund a grant to The Housing Rights Center to fund needed fair housing services for the residents of Glendora.

3. Evaluation of past performance

CDBG Entitlement Accomplishments

During the first two quarters of FY 2021-2022, the City was able to accomplish the following using the FY 2021-2022 Entitlement funds:

This Affordable and Fair Housing: During the first two quarters of FY 2021-2022, the Los Angeles County Development Authority (LACDA) distributed 48 Housing Choice Vouchers. Also, a total of 11 people were assisted with fair housing issues by the Housing Rights Center (HRC) through the first quarter of FY 2021-2022, the third year of implementing the 2018-2023 Consolidated Plan.

Public Facilities and Infrastructure Improvements: In FY 2021-2022, the City completed two multi-year Street Improvement Projects:

- The Dawson/Pennsylvania, Washington Street Improvement Project, which repaired damaged curbs, gutters, and sidewalks in the neighborhood of Census Tract 4039.02, Block Group 1. The project was funded using FY 2019-20 and FY 2020-2021 funds and benefitted 2,015 residents, of which approximately 1,035 (51%) are low- and moderate-income.
- The Mountain View Street Improvement Project, which rehabilitated badly deteriorated pavement and sidewalks in the low- and moderate-income area of Census Tract 4010.02, Block Group 3. This project was funded using 2021-2022 Entitlement funds. This project benefitted 1,550 residents, of which approximately 850 (54.84%) were low- and moderate-income.

The Street Improvement Project benefitting nine streets south of Juanita Avenue and west of Glendora Avenue is still on-going. This project was originally funded with FY 2021-2022

Entitlement funds and FY 2020-2021 Program Income. In addition, \$241,925 in FY 2022-2023 funds will be allocated to this project for a total project CDBG funding amount of \$682,980.

CDBG-CV Accomplishments

The City used its CDBG-CV funds to prevent, prepare for, and respond to the coronavirus. From the initial allocation through the second quarter of FY 2021-2022, the following was accomplished:

Economic and Human Development: The City recognized the limited interest in the Small Business Assistance Loan program due to the small amount of funds available. Therefore, in FY 2020-2021, the City rolled over unspent program funds from previous years to allow for larger size loans. In FY 2021-2022, one new applicant was provided a loan of \$14,862 to assist in paying her business location rent, which was in arrears.

In FY 2019-2020, the City used CDBG-CV funds to create the COVID Emergency Rental Assistance Program, which is on-going. From inception through the second quarter of FY 2021-2022, 46 low- and moderate- income residents who were impacted by the pandemic were assisted with rental assistance.

4. Summary of Citizen Participation Process and consultation process

The citizen participation process utilized for the FY 2022-2023 Annual Action Plan included: publishing a notice of available funding and request for applications on December 23, and December 30, 2021 in the San Gabriel Valley Examiner; conducting a public hearing before the City Council to discuss community needs, funding applications and potential allocations on March 22, 2022; and conducting a second public hearing before the City Council on May 10, 2022 to adopt the Action Plan. Public notices for the hearings were published in the San Gabriel Valley Examiner, posted at City Hall, and posted on the City's website. Proof of publication for all public hearings, meetings, and general outreach efforts can be found in the Appendix.

A 30-day public review will be held from March 22, 2022 to May 10, 2022. Copies of the draft Action Plan are available for the public to read on the City website and at City Hall (Planning Department and Office of the City Clerk). Additionally, the City ensured reasonable access to information and records related to the development of the Plan and to the expenditure of resources for programs funded by CDBG. The

final Consolidated Plan, Annual Action Plans, amendments to the Plans, and annual performance reports will be available for five years at City Hall.

5. Summary of public comments

This could be a brief narrative summary or reference an attached document from the Citizen Participation section of the Con Plan.

During the development of the FY 2018-2023 Consolidated Plan public meetings were held on February 21, 2018 and an on-line survey was conducted. Hard-copies of the survey were available at multiple locations and upon request. Both the meeting and the survey were available in English and Spanish. The City published notice of the meeting and survey and outreached by mail to 120 agencies and service providers. The following comments were provided:

- There is a need for affordable housing. Waiting list for publicly assisted affordable housing is long.
- Community services are needed to assist low-income households, homeless, persons with disabilities, particularly those with mental health issues, and victims of domestic violence. A resource guide would be useful for making referrals for services.
- Fair housing outreach and education is an important service.

During the development of the Consolidated Plan, no comments were received during the public review period or at the public meetings before City Council.

6. Summary of comments or views not accepted and the reasons for not accepting them

Describe the reasons for allocation priorities and any obstacles to addressing underserved needs

During the development of this FY 2018-2023 Consolidated Plan, which forms the basis for establishing objectives and outcomes in the Strategic Plan and five (5) subsequent Annual Action Plans, the following priority needs and objectives were established:

1. **Infrastructure and Public Facilities:** Improve and expand infrastructure and public facilities that benefit low- and moderate-income neighborhoods and residents.

2. **Economic and Human Development:** Provide for the economic development needs of low- and moderate- income persons and neighborhood target areas.
3. **Fair Housing:** Promote fair and equal housing choice for all persons, promote housing that is accessible to and usable by persons with disabilities, and comply with the non-discrimination requirements of the various Fair Housing laws.
4. **Administration and Planning:** Provide for administration and planning activities to develop housing and community development strategies and programs needed to carry out actions that address identified needs in the Consolidated Plan.

These established priority needs form the basis for allocating investments geographically within the jurisdiction during the next five-year period and are a result of various community outreach efforts and consultation meetings developed under the Citizen Participation process. Given the limited resources the City will receive, the City will be relying on non-profit agencies to assist in addressing obstacles to meet underserved needs.

The City's strategy of focusing CDBG funds on public facilities and infrastructure are in line with HUD's guidance urging grantees to consider using CDBG funds, to the extent possible, to support investments in predevelopment activities for infrastructure and public facilities activities per a Presidential Memorandum issued January 16, 2015, which instructed federal agencies to expand support for predevelopment activities.

Given the limited CDBG funding allocation, affordable housing is not identified as a priority for CDBG funds. The City will be supporting affordable housing through other programs and activities, including planning tools such as density bonus incentives and zoning provisions for accessory dwellings and supportive/transitional housing, and Housing Choice Vouchers.

Description of the geographic areas of the entitlement (including areas of low-income and minority concentration) where assistance will be directed

With limited CDBG funds, the City plans to focus on a limited number of activities for FY 2022-2023. Geographic distribution of funding is based on the nature of the activity to be funded and will occur as follows:

- Fair housing services will be provided citywide to all residents; and
- Street Improvement Projects administered by the Public Works Department will take place on primarily residential streets in the City’s low- and moderate-income areas.

Affordable Housing

AP-55 Affordable Housing – 91.220(g)

Introduction

As stated, there are limited opportunities and funding available to provide affordable housing in Glendora. The City will continue to seek new partnerships in the upcoming years. During FY 2022-2023 the City will address affordable housing needs through the following programs:

AP-65 Homeless and Other Special Needs Activities – 91.220(i)

Introduction

The population of homeless is small in the City of Glendora and the City has very limited resources to address homelessness. Homeless activities have not been established as a high priority for the purpose of spending CDBG funds in the FY 2018-2023 Consolidated Plan. In addition, Therefore, the City relies on coordinated efforts with the following agencies the needs of those experiencing homelessness:

- The East San Gabriel Valley Coalition for the Homeless to provider information, counseling, and referral services to homeless persons that reside in Glendora; Los Angeles Homeless Services Authority (LAHSA) to provide shelter opportunities; and
- The Glendora Welfare Agency's Operation Improvement Program to provide financial assistance to homeless or those that are at-risk of being homeless. Motel vouchers, transportation services, food, clothing, gasoline vouchers, rental assistance, utility payments and referral services are provided through this program; and
- The Los Angeles Homeless Services Authority (LAHSA) to provide shelter opportunities.

Describe the jurisdictions one-year goals and actions for reducing and ending homelessness including

Reaching out to homeless persons (especially unsheltered persons) and assessing their individual needs

In 2018, the City of Glendora, in collaboration with four other SGV cities (Azusa, Covina, Duarte, and West Covina) applied for Los Angeles County Measure H funds under the Priority Area of enhancing County Service systems for those experiencing or at-risk of homelessness. A grant of \$343,250 was awarded to these five communities to retain case managers to assist the homeless.

In addition, the City of Glendora is a voting member of the Homelessness Committee of the San Gabriel Valley Council of Governments (SGVCOG) to study homeless issues and programs. The City will continue to work with SGVCOG and the other agencies listed in the Introduction to this section to reach out to homeless persons and assess their individual needs.

Addressing the emergency shelter and transitional housing needs of homeless persons

The City will work with the above agencies to address emergency shelter and transitional housing needs of homeless persons.

Helping homeless persons (especially chronically homeless individuals and families, families

with children, veterans and their families, and unaccompanied youth) make the transition to permanent housing and independent living, including shortening the period of time that individuals and families experience homelessness, facilitating access for homeless individuals and families to affordable housing units, and preventing individuals and families who were recently homeless from becoming homeless again

The City relies on coordinated efforts with several agencies the needs of those experiencing homelessness. Specifically, The Glendora Welfare Agency's Operation Improvement Program provides financial assistance to those that are at-risk of being homeless. Motel vouchers, transportation services, food, clothing, gasoline vouchers, rental assistance, utility payments and referral services are also provided through this program.

Measure H grant funds from Los Angeles County are allocated to Union Station Homeless Services to provide case management services to the homeless and those at-risk of homelessness in Glendora and four surrounding cities (Azusa, Covina, Duarte, Glendora, and West Covina). These services assist the chronically homeless persons to transition to permanent housing and helps prevents those at-risk from becoming homeless.

Due to COVID-19, the City of Glendora has made some changes. On April 14, 2020, the City Council authorized funding from the Affordable Housing Fund to allow staff to execute agreements with local hotels, motels and similar businesses to house and provide services to homeless individuals for the duration of the local emergency declared for COVID-19. The approved funding by the city has made it possible to utilize motels and services in Glendora to house the homeless.

The Union Station navigation team continues to respond to referrals and triage and assess each individual for resource matching. The referrals are assessed to determine who is eligible for project room key, which is designed to house vulnerable individuals that are most susceptible to contracting the Coronavirus. The Community Services Department coordinates with the housing navigators and law enforcement to seamlessly provide strategic outreach and referral services for homeless individuals.

Helping low-income individuals and families avoid becoming homeless, especially extremely low-income individuals and families and those who are: being discharged from publicly funded institutions and systems of care (such as health care facilities, mental health facilities, foster care and other youth facilities, and corrections programs and institutions); or, receiving assistance from public or private agencies that address housing, health, social services, employment, education, or youth needs.

The City continues to coordinate with the agencies listed in the Introduction to this section. The

comprehensive services provided by the agencies discussed above target those who are most at-risk, including extremely low-income individuals and families, those who are being discharged from publicly funded institutions and systems of care, and those who are receiving assistance from public or private agencies. Services provided assist low-income individuals and families with the transition to permanent housing and independent living, including shortening the period of time that individuals and families experience homelessness, facilitating access for homeless individuals and families to affordable housing units, and preventing individuals and families who were recently homeless from becoming homeless again.

The City continues to operate the Emergency Rent Assistance Program using CARES Act funds (CDBG-CV). These funds address the impacts of COVID-19, which often disproportionately affect extremely-low and low-income individuals and families. Temporary assistance with rent can help prevent those individuals and families from becoming homeless.

AP-75 Barriers to affordable housing – 91.220(j)

Introduction:

Glendora works to remove barriers to affordable housing by implementing a Housing Element that is consistent with California law and taking actions to reduce costs or provide off-setting incentives to assist in the production of safe, high-quality, affordable housing. However, the increasing costs of producing all housing, including affordable housing, and the lack of governmental resources to underwrite the costs make producing affordable housing very difficult. These factors tend to disproportionately impact lower- and moderate-income households due to their more limited capacity to absorb rising market costs. Even when resources are available, it is often not sufficient to underwrite enough of the costs to produce housing for the very low and extremely low population. The City is committed to removing governmental constraints that hinder the production of housing, and offers a one-stop streamlined permitting process to facilitate efficient entitlement and building permit processing.

Actions it planned to remove or ameliorate the negative effects of public policies that serve as barriers to affordable housing such as land use controls, tax policies affecting land, zoning ordinances, building codes, fees and charges, growth limitations, and policies affecting the return on residential investment

The City updated its Housing Element for the 2013-2021 planning period and is currently in the process of updating the Housing Element for the 2021-2029 planning period, but that undertaking is not yet completed. The update did not identify significant governmental constraints to housing development. The City has already completed the following actions aimed at ameliorating the negative effects of public policies:

- 2016 – Amended the City’s density bonus provisions to be consistent with State law.
- 2016 – Amended the Zoning Code to address the provision for employee housing.
- 2017 – Amended the City’s processing of Second Kitchen Unit to be consistent with State law.

The City will continue to implement the streamlined permit processing as required by State law and offer incentives to foster affordable housing development through State density bonus law and local incentives.

Fair housing issues are also affordable housing issues since they disproportionately impact low- and moderate-income residents. The City also identifies and addresses barriers to fair housing as part of the development of the Analysis of Impediments to Fair Housing Choice (AI). The 2018-

2022 AI did not identify any Glendora land use policies or zoning which would present an impediment to fair housing choice.

AP-85 Other Actions – 91.220(k)

Introduction:

This section discusses the City's underserved needs and institutional structure for delivering housing and community development activities.

Actions planned to address obstacles to meeting underserved needs

The City will rely on its existing network of public and nonprofit service agencies, along with the City's Community Services Department, to provide an array of supportive services for the City's underserved groups, which include the elderly, homeless and at-risk homeless families and individuals, and the disabled. The City uses a portion of its CDBG administration funds to provide a fair housing program that targets many of the City's underserved residents. Fair housing is a homeless prevention strategy, allowing many equal access to housing and assisting those facing unfair treatment in the housing market. CDBG funds will also be used to provide needed street improvements in low- and moderate-income neighborhoods, in which many of those underserved individuals may reside.

Actions planned to foster and maintain affordable housing

The City will continue to foster affordable housing development in the community through incentives such as density bonuses. The City identifies and addresses barriers to fair housing as part of the development of the Analysis of Impediments to Fair Housing Choice (AI). Fostering fair housing as a homeless prevention strategy can assist those facing unfair evictions and foreclosure frauds, often those most in need of affordable housing, and therefore be able to remain at their homes.

Actions planned to reduce lead-based paint hazards

The City's Code Enforcement staff will continue to provide information of lead-based paint hazards and resources for abatement to residents. Such information is also available at public counters.

Actions planned to reduce the number of poverty-level families

The City continues expand economic opportunities for lower income persons, especially those living in poverty. The City maintains a reputation as one of the most business friendly communities. The City's Economic Action Plan (2017) outlines various actions to attract and retain businesses and employment in the City, including providing educational workshops and informational materials, assisting in business licensing and land use/zoning issues, and attracting filming in Glendora that would provide employment and vendor opportunities for local residents

and businesses. The City also created a dedicated section on its website to function as a centralized location for information and resources for existing and prospective businesses.

Actions planned to develop institutional structure

The City's Housing Authority took over the management of the former Redevelopment Agencies housing obligations when it became the Housing Successor. Also in response to the dissolution of Redevelopment, the City eliminated the Housing Division and consolidated the administration of CDBG program under the City's Planning Department. City staff had consulted with HUD staff and attended HUD trainings in order to better craft a CDBG program that can be delivered in a cost-effective manner. City staff will continue to communicate and work with HUD staff to implement the CDBG program and develop institutional structure.

Actions planned to enhance coordination between public and private housing and social service agencies

The City will continue to coordinate with public and private housing and services agencies to deliver housing and community development activities in the community. Various agencies will continue to be invited to attend public meetings related to the CDBG program.

BACKGROUND

Consolidated Plan: Every five years, the CDBG program requires that the City adopt a "Consolidated Plan," which establishes the goals and objectives of the City's CDBG program. During the development of this 2018-2023 Consolidated Plan, which forms the basis for establishing objectives and outcomes in the Strategic Plan and five (5) subsequent Annual Action Plans, the following priority needs and objectives were established:

- 1. Infrastructure and Public Facilities: Improve and expand infrastructure and public facilities that benefit low- and moderate-income neighborhoods and residents.
2. Economic and Human Development: Provide for the economic development needs of low- and moderate- income persons and neighborhood target areas.
3. Fair Housing: Promote fair and equal housing choice for all persons.
4. Administration and Planning: Provide for administration and planning activities to carry out actions that address identified needs in the Consolidated Plan.

These established Priority Needs form the basis for allocating investments geographically within the City during the next five-year period and are a result of various community outreach efforts and consultation meetings developed under the Citizen Participation process.

Only eligible activities that receive a High priority level in the FY 2018-2023 Consolidated Plan will be funded during the five year period.

Annual Action Plan: The Annual Action Plan is part of the Five-Year Consolidated Plan and serves as the City's application for funding from HUD. The City of Glendora will receive an allocation of approximately \$300,000 of CDBG funds for FY 2022-2023. The Federal Budget has not been approved at this time, however the City must meet certain statutory deadlines in submitting its Action Plan and allowing for citizen participation, as such staff has developed this allocation amount based on last year's allocation.

In addition to the annual allocation, unspent funds are available from prior years in the amount of \$580.80 (\$581). These unspent funds will be allocated to projects in FY 2022-2023. Combined with the anticipated allocation, a total of \$300,581 will be available in FY 2022-2023.

Table with 2 columns: Allocation type and Amount. Rows: CDBG 2022-2023 Allocation: \$300,000 (estimate); Unspent Funds prior years: \$581; Total: \$300,581

The CDBG funding may be allocated to the following types of eligible projects:

- 1. Acquisition: by purchase, long-term lease, and donation of real property for an eligible public purpose.
2. Disposition: of real property acquired under the CDBG Program.
3. Construction and Rehabilitation: of certain publicly owned facilities, such as (a) senior citizen centers; (b) parks and playgrounds; (c) community centers; (d) fire protection facilities and equipment; (e) sidewalks and street improvements; (f) water and sewer systems.
4. Rehabilitation of publicly and privately owned housing: for low-and moderate-income households.
5. Public Services: which are new or expanding, and directed toward meeting employment, crime prevention, childcare, drug abuse prevention, homeless assistance, or other community service needs.
6. Removal of Architectural Barriers: that restricts the mobility and accessibility of elderly or handicapped persons to publicly owned and privately-owned buildings, facilities, and improvements.
7. Special Economic Development Activities: that provide grants, loan guarantees and other forms of necessary or appropriate support to private "for profit" businesses to provide increasing employment opportunities and other public benefit.

While funding amounts are somewhat flexible, there are statutory limitations that restrict the amount of funding for Planning and Administration costs to not more than 20 percent of the annual grant allocation and limit public services to 15 percent of the annual grant allocation.

Based on the limited amount of resources available to the City, statutory restrictions, and the Priority Needs established, staff recommendations for the FY 2022-2023 CDBG One-Year Annual Action Plan are as follows:

Specific Community Development Block Grant Certifications

The Entitlement Community certifies that:

Citizen Participation -- It is in full compliance and following a detailed citizen participation plan that satisfies the requirements of 24 CFR 91.105.

Community Development Plan -- Its consolidated plan identifies community development and housing needs and specifies both short-term and long-term community development objectives that have been developed in accordance with the primary objective of the CDBG program (i.e., the development of viable urban communities, by providing decent housing and expanding economic opportunities, primarily for persons of low and moderate income) and requirements of 24 CFR Parts 91 and 570.

Following a Plan -- It is following a current consolidated plan that has been approved by HUD.

Use of Funds -- It has complied with the following criteria:

1. Maximum Feasible Priority. With respect to activities expected to be assisted with CDBG funds, it has developed its Action Plan so as to give maximum feasible priority to activities which benefit low- and moderate-income families or aid in the prevention or elimination of slums or blight. The Action Plan may also include CDBG-assisted activities which the grantee certifies are designed to meet other community development needs having particular urgency because existing conditions pose a serious and immediate threat to the health or welfare of the community, and other financial resources are not available (see Optional CDBG Certification).

2. Overall Benefit. The aggregate use of CDBG funds, including Section 108 guaranteed loans, during program year(s) 2021-2022, 2022-2023, 2023-2024 [a period specified by the grantee of one, two, or three specific consecutive program years], shall principally benefit persons of low and moderate income in a manner that ensures that at least 70 percent of the amount is expended for activities that benefit such persons during the designated period.

3. Special Assessments. It will not attempt to recover any capital costs of public improvements assisted with CDBG funds, including Section 108 loan guaranteed funds, by assessing any amount against properties owned and occupied by persons of low and moderate income, including any fee charged or assessment made as a condition of obtaining access to such public improvements.

However, if CDBG funds are used to pay the proportion of a fee or assessment that relates to the capital costs of public improvements (assisted in part with CDBG funds) financed from other revenue sources, an assessment or charge may be made against the property with respect to the public improvements financed by a source other than CDBG funds.

In addition, in the case of properties owned and occupied by moderate-income (not low-income) families, an assessment or charge may be made against the property for public improvements financed by a source other than CDBG funds if the jurisdiction certifies that it lacks CDBG funds to cover the assessment.

Excessive Force -- It has adopted and is enforcing:

1. A policy prohibiting the use of excessive force by law enforcement agencies within its jurisdiction against any individuals engaged in non-violent civil rights demonstrations; and
2. A policy of enforcing applicable State and local laws against physically barring entrance to or exit from a facility or location which is the subject of such non-violent civil rights demonstrations within its jurisdiction.
