

Traffic going through our street.
Too hard to get out of our street in morning
and afternoon now. Having the streets go
through is going to create way too much
traffic for our street.

Save the trees by building walls
around them.

Answer

Having on 2 entrances and exits
Ludicrous.

Why is there no exit to the
outh which would help elevate traffic
in family neighborhoods.

Causing safety issues.

By 2 story, 1 story would allow houses
Ada to keep their views of the mountains
& money will always win

Don't take the old oaks - wild life & bird

Need additional access - look via city
yard, Walnut/Ada etc. In an emergency
there will be chaos.

10 foot block wall - some properties
have erosion front the property
so it needs to be reinforced.

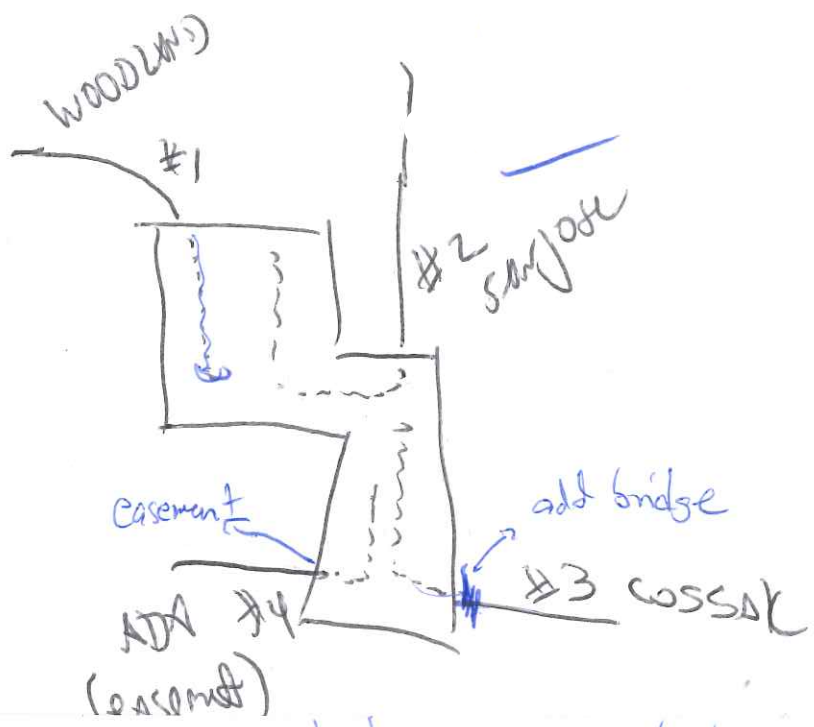

Traffic to foothill is horrible during
school hours - San Jose is a mess
to try & come in ego! An access

the city yard area will
new High School access
much more efficient.

Save Trees!

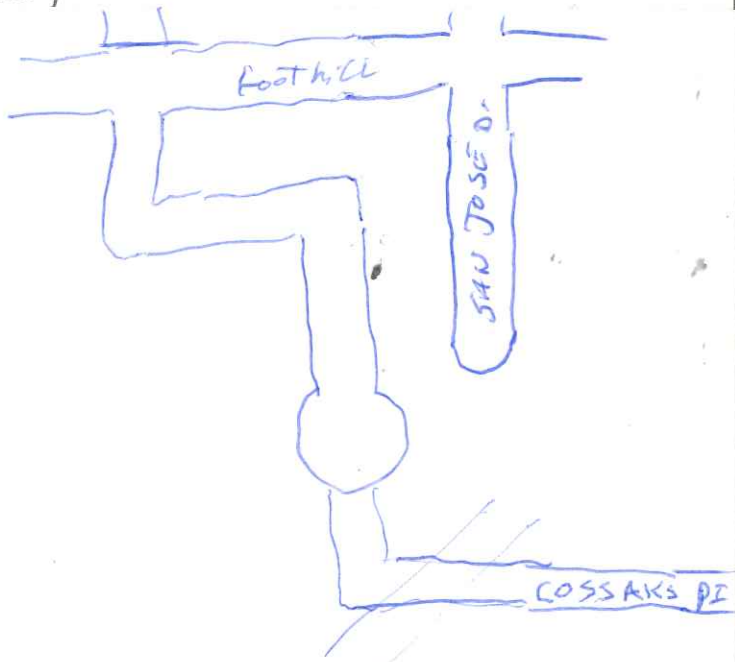

↑ Trees to promote
Privacy along Wall line

Ensure no negative
impact on Sewer
for rest of community

WOODLANDS

proposed
reduce traffic

lots are too small

need more green space -

where are all the kids

supposed to play? In the street?

Should have more access points,
2 is not enough - all the traffic
will go through Woodland Lane,
because San Jose is difficult to get
out from - what about access

from Kola and Cossacks Place
will you be saving the oak trees?

need to evaluate traffic patterns, all
the traffic should not be going through
Woodland Lane

- put a traffic light at San Jose
- roads are not wide enough
for emergency vehicles
- concern for increased crime
due to so many people

Concern

Privacy for homes on Ada

- ① No Window view from 2ND Story
- ② ↑ Easement from Retaining Wall
- ③ ↑ height of Wall by retaining Wall then Build Wall

- Traffic problems
negative impact, for High
School

amr

Lot size is too small for each property.
No Community Park and Pool for Children
Oak tree should remain.

Need more than two entrance to property
too high density housing build on the property
need to add traffic light on S. San Jose Dr.

Thank you for considering my comments.
Thank you.
8/24/2024.

COMMENT. I AM TOTALLY
OPPOSED TO THIS PROJECT!!

really concerned about traffic!

ere on Woodland Ln + I think
everyone is going to use that vs
San Jose because San Jose is a narrow
street which for sure needs a stop light
Fourth. If not people won't want to exit there.
Also consider getting permits to
bridge over the wash. A lot more
pace to work with!

Thanks!

ere are 20 kids who play on
Woodland lane every day who are
not used to cars. They play on the
street everyday.

stop sign ~~do~~ do not even ~~work~~
work.
