SolarCity, City of Glendora Celebrate Largest Solar Project in City's History

Solar power for teen recreation center is expected to save City thousands in energy costs over the next 20 years

WHAT: SolarCity® and the City of Glendora will present a ribbon-cutting ceremony to celebrate completion of the largest solar power installation the City has ever undertaken. The 748-panel, 180-kilowatt array will allow the Crowther Teen and Family Center to generate renewable energy on-site, and is expected to save the City several thousand in the first year of operation.

“The Glendora City Council is very pleased to become a leader in the use of renewable energy to help the environment and reduce our energy costs,” says Glendora Mayor Douglas F. Tessitor. “This project is another example of our efforts to meet our obligations to future generations through innovative public-private partnerships.”

WHEN: Friday, Dec. 16, 2011: 10:30 a.m.

WHERE: Crowther Teen and Family Center, 241 W. Dawson Ave., Glendora, CA 91740

WHO: City of Glendora officials: Douglas F. Tessitor, Mayor; Gene Murabito, Mayor Pro Tem; Karen K. Davis, Councilmember; Judy M. Nelson, Councilmember; Joe Santoro, Councilmember; Chris Jeffers, City Manager; Dave Davies, Public Works Director; La Shawn Butler, Community Services Director. Rory Garzot, SolarCity project development manager.

About SolarCity

SolarCity®—a national leader in solar power design, financing, installation, monitoring and energy efficiency services—was founded with the mission to help millions of homeowners and businesses adopt clean power, protect themselves from rising gas and electricity costs and protect their environment from polluting power sources. The company's SolarLease® and Power Purchase Agreement (PPA) options can make it possible for homeowners and businesses to switch to clean, solar power for less money than they currently pay for electricity. SolarCity's 24 operations centers serve Arizona, California, Colorado, Hawaii, Maryland, Massachusetts, New Jersey, New York, Oregon, Pennsylvania, Texas and Washington, D.C. Additional information about the company is available on the Web at www.solarcity.com.
